English • Ukrainian

## Professional Experience

---

**Gresham Technologies**, *Senior Software Engineer*  
2021 – present | Bristol

- Lead migration of legacy architecture to microservices.
- Spearheaded Kotlin adoption for microservice architecture, establishing it as the preferred language moving forward, resulting in improved code quality, consistency, and team proficiency.
- Mitigated security vulnerabilities in our legacy and microservices-based products.
- Assisted developers and support staff in resolving key customer issues.
- Migrated and streamlined CI/CD pipelines from Jenkins to CircleCI.
- Mentored and lead junior developers.

**Gresham Technologies**, *Software Engineer*  
2013 – 2021 | Bristol

- Conducted candidate interviews and contributed to the selection process to ensure top talent alignment with organizational goals.
- Worked on our core product's initial AWS deployment, which evolved into our company's official SaaS product offerings.
- Trained Professional Services staff on how to configure and deploy our core product.
- Contributed to customer acquisition efforts by crafting targeted solutions and delivering impactful demonstrations that addressed unique challenges.

**Gresham Technologies**, *Graduate Software Engineer*  
2011 – 2013 | Bristol

- Worked through the identification and resolution of technology issues.
- Improved software and delivered products under tight time constraints.
- Problem solved with various stakeholders.

## Education

---

**Computer Science MEng**, *University of Bristol*  
2007 – 2011 | Bristol

**St Boniface's Catholic College**  
2001 – 2007 | Plymouth
